

Annual Essex Skypark Wings & Wheels

Poor crosswind technique is a major cause of loss of control during landing and takeoff. As a local Designated Pilot Examiner, FAASafetyTeam Rep, John Cutcher has had many opportunities to see good and bad crosswind technique. He will be presenting what he has learned at the Essex Skypark Wings and Wheels weekend. Come learn from his experience, enjoy the food, music, aircraft and automobiles on display and, if you fly in, take home the T shirt! Click the link below and register TODAY.

Directions: Exit I-695 on MD-702 S. When you reach Essex take Back River Neck Road to Diffendall Road. Once you reach the airport follow the crowd.

A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafetyTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
